

# clip chart

Students will start each day on the color green, ready to learn. Based upon their behaviors they can move up or down the clip chart. Once a student moves his/her clip, he/she has many opportunities to move his/her clip again in either direction. The color the student's clip is on at the end of the day will be recorded in their behavior log.

# BEHAVIOR LOG

Please check your child's B.E.E. Binder everyday. You will find your child's behavior log. Please discuss your child's behavior each day and initial in the appropriate place as I will be checking their logs each day as well. Please read the notes I leave based on your child's behavior and write a note back if you have any comments.
